The Nordic Council of Ministers continues the successful pilot project of Nordic Masters. In 2009, Nordic institutions of higher education are welcome to apply for funding up to 1 million DKK for development of Nordic Master Programs.

The application deadline is April 30, 2009.

A Nordic Master Program (NMP) should be a master programme jointly offered by several higher education institutions from minimum three Nordic countries. This allows the best Nordic resources to be gathered within specific fields of expertise in higher education. Nordic Master Program seeks to enhance the development of high academic quality in order to boost the competitiveness of Nordic higher education in an increasingly globalised market.

Call for proposals and more information about Nordic Master Program is available on [www.siu.no/nordicmaster](http://www.siu.no/nordicmaster)
