# Introduction

All beneficiaries of the Nordplus Junior programme must submit a final report to the programme administration one month after the end of the project period, as indicated in the contract. Projects with a duration of more than 18 months must additionally submit an interim report. The deadline for the interim report is fixed to June every year.

The final report must present an account of the activities carried out and the results achieved. The final report has a narrative part, with a description of the activities carried out and the results achieved, and a financial part accounting for the use of the Nordplus Junior grant.

The following document presents the guidelines and requirements for the final report and the documentation of activities and contains a step by step guide for the reporting process. Some parts of the reporting differ between mobility projects and project/networks.

Mobility projects are projects that consists of one, or more, of the following mobility activities: preparatory visits, class exchange, teacher exchange and pupil exchange.

Project/Networks are strategic partnerships between school groups, organisations or institutions, working together on a specific theme or issue within education or lifelong learning.

The project type you have been granted is stated in your contract and in the report form.

## 1. General information

### Language

The summary in the section "For publication" must be written in English. The rest of the report can be written in English or in a Scandinavian language, provided that all partners in the project are able to understand.

### Grants

Grants for projects in Nordplus Junior are based on *unit costs*, and the financial reporting is linked to the realisation of the activities in the project.

Mobility projects report their travelling in Espresso based on fixed unit costs.

Project/networks register their activities in a separate budget template. The projects report all participating organisations and the transnational meetings

carried out including the number of participants in those. The budget template is then attached to the report. The expenses are also based on unit costs.

Project/ Network report the travelling costs for the transnational meetings for all participating organisations in a separate budget template and attach it to the report.

Please note the following:

- grants can never be increased or raised from the amount indicated in the contract.
- only activities within the contract period can be included in the final report and financial account.
- only costs directly related to the project and its activities are eligible.
- costs for non-Nordic or non-Baltic participants or costs for activities outside the Nordic or Baltic countries are not eligible.
- the final account must be certified by the legal representative of the coordinating organisation

## **Documentation**

Please note that documentation, such as receipts, transportation confirmations and attendance lists, is not to be submitted with the final report but must be kept by the coordinating organisation for at least five years after assessment and approval of the final report. No personal information about the participants in the project is to be submitted with the final report.

You need to establish a list of all the participants of each mobility. Keep the list at your organisation together with the rest of the documentation of the project. (link example).

## **2. Access to the final report**

The report is available in the Nordplus application and reporting system Espresso, which is accessible from [www.nordplusonline.org](http://www.nordplusonline.org).

The coordinating institution is responsible for accomplishing the report.

The report is connected to the contact person's e-mail address of the coordinating institution; the same address as stated in the application. Therefore, the

coordinator needs to log in using this e-mail address in order to get access to the report. If another person than the contact person has submitted the application, this person will not have access to the report form. In order to get access to the form, the contact person must create a login using his/her name and the e-mail stated in the application.

When you have logged into Espresso, you can access the report form under “My tasks”.

If you have submitted several applications, make sure to report on the correct project by checking the project reference number with the number stated in the contract.

### 3. The reporting process step-by-step

The system is built up using tags for the different parts of the application.

Once you have begun a report, it is possible to save it and then return to it later in order to finish and submit it. It is possible to do this under every tag in the reporting process. If you have forgotten to fill in a mandatory field, the system will signal this, so there is a chance to go back and complete your application before you submit it.

## Tag 1: Start

The first section of the report consists of general project information and access information.

### Project information

After logging in to Espresso and choosing the project you wish to report for, the project title and project number will be filled in automatically.

### Project access

In this section you can add or remove users having access to edit the report and add or remove users with reading access.

The screenshot displays the 'Nordplus Junior - Final Report 2018' interface for project 'NPJP-2018/10015 - Testproject'. It features a navigation bar with tabs from 1 to 7. The '1. Start' tab is active, showing two sections: '1.1. Project information' and '1.2. Project access'. In '1.1', the 'Project title' is 'Testproject' and the 'Project number' is 'NPJP-2018/10015'. In '1.2', there are two search boxes for 'Editor access' and 'Read access', each with a 'Search' button. At the bottom, there are 'Save', 'Save and Close', and 'Cancel' buttons. A red annotation with arrows pointing to the search buttons reads: 'Add users that should have access to read or edit the report'. A footer note states: '\* If you use the BACK button, all unsaved changes on the current page is lost.'

## Tag 2: Institutions

The information about the participating institutions is autogenerated from the project document. If there have been any changes in the participating institutions, this will *not* be visible in the report, even if you have notified the Junior administration.

## Tag 3: For publication

Under this section, you are asked to provide a short description of the main outcomes and results of your Nordplus Junior project (maximum 350 words), in English. This will be published in Nordplus' project database.

### Project information

The information regarding project type and period is autogenerated and cannot be changed.

### Outcomes and results

The summary should cover:

- results, conclusions and impact of the project.

- the number of students and teachers involved in the project.
- the acquired knowledge, experiences, competences and skills of the students/pupils/teachers/staff involved.
- the impact of the project on the participating institutions.
- if relevant, the description may also include information on developed products/materials.

You are asked to provide a short and publishable description of the main outcomes and results of your Nordplus mobility project in English. Please ensure that the description is of suitable quality and formatted as a stand alone document to enable direct publication to the general public. The information will be published on nordplusonline.org (project database). The summary should cover results, conclusions and impact of the mobility project. This includes the number of students and teachers involved in the exchanges, the acquired knowledge, experience, competences and skills of the students/pupils/learners/teachers involved, as well as the impact of the mobility project on the participating organisations. If relevant, the description may also include information on developed products/materials and links to relevant websites.

## Tag 4: Reporting

This section is the main narrative section of the report. Detailed descriptions and concrete examples are encouraged. Well-structured texts are very much appreciated as it eases the evaluation of your report.

### General information

The first part is a summary of how you reached the overall objectives for your project. Again, give detailed examples.

### Results/outcome

This section concerns the project's impact on pupils, teachers, other staff and the involved institutions. Describe both expected and unexpected outcomes, both positive and less positive. If any of the expected outcomes you stated in your application was not achieved, please describe this and, if possible, explain this as well.

Concerning teachers and other staff, describe impact and changes in pedagogics, didactics and methodology with concrete examples.

## Dissemination

In this section, you describe how you have informed about and spread the project in all the participating institutions, and how the outcomes are expected to be used by the participating institutions in the future. You should also describe how your outcome could be beneficial for others outside of the participating institutions.

In this section you are also asked to describe any problems or obstacles you encountered during the project, and how these were solved.

**Registration of mobility - Class exchange**

To register the mobility press "Add". Then register the information for each pupil/student/teacher that has been travelled. If the data we are asking for is equal for several of the people that have been travelling, choose "copy last row" and type the number of lines you want to copy. (If there are minor differences between the mobilities, it may be easier to copy several rows, and then update each row.) NB! Each line represent one mobility. Please, use the counting in the left column to make sure that the total number of mobilities is correct. You can anytime save and continue the registration later.

Type the number of lines to copy, then press Copy last row.

Please make sure that both the number of mobilities per return trip and the total number of mobilities for the whole project are correct before submitting the report. If you are granted domestic travels, you need to state the same to and from country, and the number for duration weeks should be “0”.

**Note:** During the pandemic some of you have been approved to have digital exchanges, in those cases you must report as if you had travelled.

## Tag 6: Expenditure

### Granted support

This table is autogenerated and shows the support you were granted.

### Expenditure

Please type how much of the grant you have spent on each activity. Support for mobility is based on unit costs, and the expenditure should therefore be reported as unit costs (and not as actual costs).

Note: If all mobilities are fulfilled and carried out as indicated in the grant decision, the surplus money can be used to cover other cost relevant to the project. If you have questions, or are unsure, please contact the Junior administration.

## 4. Assessment of final report

The final report, results and outcomes will be assessed by the programme administration based on the following criteria:

- the extent to which the project was implemented in line with the approved project application,
- the quality of activities undertaken and consistency with project objectives,
- the quality of the results, products and outputs produced.
- the calculation and execution of the final payment/ repayment depends on the realisation of the activities and the number of finalized mobilities.

## 5. Final comments

For further information or questions, please contact the Junior administration at [nordplus@uhr.se](mailto:nordplus@uhr.se)

You can also contact the program office in your own country, please see [www.nordplusonline.org](http://www.nordplusonline.org)
